## Bohle Fluid Bed System BFS 30

- Test equipment from the Bohle Service Center
- Excellent condition
- New Air Handling Unit (AHU)

Year of Construction:  
• 2007

# Bohle Fluid Bed System BFS 30

Designation Scope of delivery		Remark
1 x BFS 30	incl.	Non EEx
1 x Tangential spray granulation / coating	incl.	2x3 component nozzle
1 x Mass flow meter, shut off and control	incl.	
1 x Frost protection valve	incl.	
1 x Pre-heating with warm water	incl.	
1 x Dehumidification	incl.	
1 x Exhaust air filter F9	incl.	
1 x WIP execution	incl.	
1 x Centrifugal drain pump for circulation	incl.	
1 x Upgrade drain pump for circulation	incl.	
1 x First Calibration and Test of Error Messages	incl.	
1 x Plan for Bohle Machine Validation	incl.	
1 x report for Bohle Machine Validation	incl.	
<b>Additional components</b>		
1 x Deduster, sintered lamellar filter unit	incl.	Differential pressure control
1 x Final Rinse USP water		
1 x Booster pump WIP-skid		
1 x Detergent station on WIP-skid
