

The Highlight at INTERPHEX:

# QbCon<sup>®</sup> 1

First continuous granulator with  
integrated truly continuous dryer

Witness the premier of  
this unique technology  
for your R&D

**THROUGHPUT  
OF  
0.5–4 kg/h**

**Meet us at  
INTERPHEX #3345**

## QbCon® 1 – Revolutionary System for your R&D

Continuous wet granulation and drying have long been a hot topic in pharmaceutical R&D and industry. However, there is currently no truly continuous fluid-bed dryer on the market that is suitable for long process times and that also meets the quality requirements. **L.B. Bohle is going to unveil the new R&D system QbCon® 1 for truly continuous granulation and drying that meets all requirements for the successful introduction of continuous wet granulation.**

### The Benefits of L.B. Bohle's QbCon® 1:

- Material flow from raw material to dried granule in a closed continuous operation
- Fully automatic cleaning of filter during the drying process
- Consistent LOD (Loss On Drying) across all granule sizes
- Uniform conveying of the granules from feeding to discharge
- Easy scale-up for the development of new products
- Continuous application of the granulation liquid by the use of a special pump

## L.B. Bohle at Interphex:

Beside the world premiere of QbCon® 1, L.B. Bohle is going to present the roller compactor BRC 25. The BRC 25 can be used as a stand-alone unit or integrated in L.B. Bohle's continuous manufacturing unit. In addition, we will share information about the current status of machinery for batch and continuous manufacturing. L.B. Bohle provides machines for the following production steps with more than 35 years experience in pharmaceutical OSD manufacturing:

- **Weighing**
- **Dry and Wet Granulation**
- **Blending and Sieving**
- **Coating**
- **Checking**
- **Handling**

## Join our Conference Session at Interphex

04/17/2018, 11:15 a.m.–12:00 p.m.,  
INTERPHEX Live, Crystal Palace CP-2

### Advantages of continuous Manufacturing for Solid Dosages

Dr. Robin Meier  
(Manager Scientific Operations at L.B. Bohle)

**Meet us at INTERPHEX # 3345!**

**Start Your continuous Manufacturing with L.B. Bohle – NOW!**

## SAVE THE DATES

---

June 11th-15th, 2018

**ACHEMA, hall 3 #A 49 and A 71**

Frankfurt, Germany

---

September 18th-20th, 2018

**Workshop on continuous OSD Pharmaceutical Manufacturing**

Ennigerloh, Germany

L.B. Bohle LLC

700 Veterans Circle

Suite 100

Warminster, PA 18974
