

We develop more than you expect!

COMPANY

L.B. Bohle Maschinen und Verfahren GmbH is a globally operating machine and plant manufacturer for the pharmaceutical industry. Under the umbrella of a family foundation, we operate as an independent and healthy company. With more than 55 patents and utility models, we are technology leaders in the market. Our annual turnover is between 60 and 65 million € – and rising.

The headquarters of our technology company is located in 59320 Ennigerloh in the northern Münsterland region between Münster, Bielefeld and Dortmund.

In Germany we employ approx. 300 people. We manufacture exclusively „Made in Germany“ and invest disproportionately in research and development as well as in employee training. Our machines and processes ensure our customers the high quality and reliability of the manufactured products.

With an export share of 80%, we are represented in more than 40 countries worldwide by our own subsidiaries and agents.

Field Service Engineer (m/w/d)

We are looking for electrical / mechanical / mechatronic engineers who are willing to travel 70 – 80 % on our behalf to support our customers in the pharmaceutical industry.

YOUR TASKS

- Assembly and commissioning of our pharmaceutical machines and systems worldwide
- Carrying out maintenance and calibration services on the installed equipment
- Fault diagnosis and repair of the machines and systems at our customers' sites
- Occasional preparatory assembly activities in production and support of customer acceptance tests in one of our four sites in Germany
